## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 145 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 145 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### **DETAILED ACTION**

This is in answer to the amendment filed June 26, 2003

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Dave Ream at 703/299-6882 on April 27, 2000.
3. The application has been amended as follows:

In the drawings:

New formal drawings to be submitted showing the conventional names, as described in the specification, for the elements shown in figures 1, 2, 4 and 5 with non-conventional symbols (marked copies attached).

In the specification:

on page 16, line 22: ---a timer circuit--- to replace "a timer circuit 8".

In the claims:

Claim 22: in line 4, ---a current--- to replace "the current".

in line 5, --- current signals--- to replace "the current signals".

Claim 30: in line 5, ---an evaluation--- to replace "the evaluation".

### **Allowable Subject Matter**

4. Claims 22-39 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Art Unit: 2838

In the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to provide an electrical switching device comprising, *inter alia*, a microrelay switch which is arranged in a current path and has microrelay cells connected in series as a voltage divider and connected in parallel as a current divider, having a current sensor which detects a current flowing in the current path; an evaluation device for receiving and evaluating current signals detected by the current sensor and for forming a tripping signal, which acts on the microrelay switch, if the current being carried in the current path exceeds a threshold value; and a short -circuit current limiter arranged in the current path such that the short -circuit current limiter is connected in series with the microrelay switch; wherein the switching device is designed such that the microrelay switch opens in response to the tripping signal from the evaluation device in the event of small overcurrents greater than the threshold value, and, in the event of large overcurrents, the short-circuit current limiter limits these overcurrents to currents which can be interrupted by the microrelay switch. As noted here, and as described in the specification, the claimed invention recites **a combination** of a microrelay switch for switching off small overcurrents, and a short-circuit current limiter, for example a fuse link, a power breaker, or a PTC thermistor, for limiting or switching of large overcurrents, as well as provides a small and lightweight electromechanical system. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Pia Tibbits whose telephone number is (703) 308-7305.

Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center receptionist whose telephone number is (703) 305-0956.
